

# SCHÜTTE AQUADOT

Digital shower system with  
Smart Control

# YOUR BENEFITS

## PERFECT CONTROL FOR YOUR SHOWER EXPERIENCE

The **AQUADOT** system technology gives you exceptionally precise control of water temperature and intensity with its innovative digital technology. The built-in pre-heat function automatically flushes out cold, stale water so that you can always start with water that is at a pleasant temperature. Your shower experience will be more comfortable and relaxing than ever before – for every moment you want to enjoy.

## SIMPLE OPERATION – MADE FOR YOU

The combination of high-quality knobs and a clear digital display makes operation child's play. An effortless, user-friendly experience that allows you to have perfect control of the shower. In addition, the automatic cleaning programme ensures hygienic cleanliness by flushing the system with hot water at just under 60°C, providing effective protection against legionella.

## TAILOR-MADE SHOWER EXPERIENCES FOR THE ENTIRE FAMILY

The programmable memory function allows up to three users to store their individual settings in addition to the default profile. Everyone can enjoy the perfect shower at the touch of a button, just the way they like it.

# SMART HOME FOR YOUR SHOWER

With the **AQUADOT** you can experience the latest in digital control technology at its best. Designed for people who appreciate functionality, comfort and reliability, this shower system offers precise control of temperature and water flow – for a personalised shower experience that leaves nothing to be desired.

**AQUADOT** is for those who value technology and aesthetics, who want a product that understands their needs, and who want to turn a simple shower into a perfect experience. The **AQUADOT** sets new standards – for your bathroom, and the demands you place on it.

# THE DESIGN

AQUADOT's minimalist, high-quality design blends harmoniously into any bathroom. The fitting has a timeless elegance that is both modern and durable, thanks to the combination of black and glossy chrome.

Durable materials and precise workmanship ensure not only an attractive appearance, but also a long service life.

Thanks to its concealed installation, the fitting blends discreetly and elegantly into the bathroom without dominating the space – for a harmonious and neat overall look.

# THE DETAILS

- Digitally controlled shower system for precise control
- Simple operation thanks to turn-and-push controller and digital display
- Programmable shower functions, memory for up to 3 users
- Pre-heat function for a perfect water temperature
- Digital water flow and temperature display
