# SCHÜTTE AQUASTAR PRO

Filter tap

Filtered water

# YOUR BENEFITS

### PURE WATER STRAIGHT FROM THE TAP

Our high-quality filter effectively removes impurities such as chlorine, heavy metals and sediments, for clear and tasty water. This protects your health and that of your family.

### AN INVESTMENT IN SUSTAINABLE LIVING

Enjoy limescale-free water by choosing filtered water! This not only protects your household appliances from limescale, it also increases their lifespan.

#### ACTIVELY CONTRIBUTING TO A BETTER ENVIRONMENT

Filtered water straight from the kitchen tap. That way, you reduce plastic waste and save energy. Choose a sustainable solution and help minimise the impact of disposable packaging on the environment.

### ELEGANT DESIGN FOR YOUR KITCHEN

In addition to its functionality, our kitchen mixer tap also impresses with its attractive design. It fits perfectly into any kitchen environment and adds an extra touch of elegance and a modern accent to your kitchen.

### **AQUASTAR PRO**

The kitchen tap that can do more – modern design and first-class quality combined with innovative technology.

The **AQUASTAR PRO** is a kitchen tap and water filter in one. A separate water supply ensures healthy, filtered drinking water on the one hand and unfiltered drinking water for many everyday uses on the other.

## THE FILTER

### EUROPEAN BRAND FILTER FOR CLEAN WATER

Thanks to state-of-the-art filter technology, the **AQUASTAR PRO** effectively filters heavy metals such as copper, lead and other impurities from tap water. This results in great taste and pure water quality. This makes cooking and drinking a healthy pleasure.

# THE DESIGN

Elegant and timeless design combined with the latest technology. The **AQUASTAR PRO** is available in the trendy colours chrome, stainless steel and matt black.

Art 99805

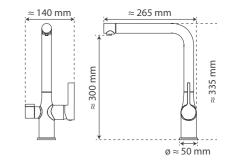

Chrome, Art. 99800

Matt black, Art. 99860
