Unsere Leidenschaft für Qualität und Verantwortung.

Als Familienunternehmen stehen wir für hochwertige Sanitärlösungen, die das tägliche Leben verbessern. Mit weltweit nach deutschen Standards produzierten Produkten bieten wir Ihnen innovative und flexible Lösungen mit einem optimalen Preis-Leistungs-Verhältnis. Als verantwortungsvoller Arbeitgeber und zuverlässiger Partner legen wir höchsten Wert auf Ehrlichkeit, Vertrauen, sowie die Zufriedenheit unserer Mitarbeiter und Kunden. Gemeinsam schaffen wir Räume, in denen Sie sich wohlfühlen.

EN | As a family-run business, we stand for high-quality sanitary solutions that improve everyday life. With products manufactured worldwide to German standards, we offer you innovative and flexible solutions with an optimal price-performance ratio. As a responsible employer and reliable business partner, we value honesty, trust and the satisfaction of our employees and customers. Together, we create spaces in which you feel at home.

FR | En tant qu'entreprise familiale, nous sommes synonymes de solutions sanitaires de qualité supérieure qui améliorent la vie quotidienne. Avec des produits fabriqués dans le monde entier selon les normes allemandes, nous vous proposons des solutions innovantes et flexibles avec un rapport performance-prix optimal. En tant qu'employeur responsable et partenaire commercial fiable, nous accordons une grande importance à l'honnêteté, à la confiance et à la satisfaction de nos collaborateurs et clients. Ensemble, nous créons des espaces dans lesquels il fait bon vivre.

NL | Als familiebedrijf staan wij voor hoogwaardige sanitair oplossingen die het dagelijkse leven verbeteren. Met producten die wereldwijd geproduceerd worden volgens Duitse normen, bieden wij u innovatieve en flexibele oplossingen met een optimale prijs-prestatie verhouding. Als verantwoordelijke werkgever en betrouwbare zakenpartner staan eerlijkheid, vertrouwen en de tevredenheid van onze medewerkers en klanten bij ons bovenaan. Samen creëren we ruimtes waarin u zich thuis voelt.

Qualität, die hält, was sie verspricht.

Unsere Produkte stehen für Beständigkeit, Zuverlässigkeit und perfekte Funktionalität. Seit jeher werden sie in unserem hauseigenen Labor intensiv auf Funktion, Materialqualität und Belastbarkeit geprüft. Durch ständige Tests und Innovationen in unserem Labor in Wallenhorst stellen wir sicher, dass unsere Armaturen Ihnen über viele Jahre Freude bereiten – für Qualität, auf die Sie sich verlassen können.

EN | Our products stand for durability, reliability and perfect functionality. They have always been extensively tested regarding function, material quality and resilience in our in-house laboratory. Through constant testing and innovation, we ensure that our taps will give you many years of pleasure - quality you can rely on.

FR | Nos produits sont synonymes de durabilité, de fiabilité et de fonctionnalité parfaite. Depuis toujours, ils sont soumis à des tests intensifs dans notre propre laboratoire pour vérifier leur fonctionnement, la qualité des matériaux et leur résistance. Grâce à des tests rigoureux et des innovations permanentes, nous garantissons que nos mitigeurs vous donneront satisfaction pendant de nombreuses années – une qualité sur laquelle vous pouvez compter.

NL | Onze producten staan voor duurzaamheid, betrouwbaarheid en perfecte functionaliteit. Ten alle tijden worden ze in ons eigen laboratorium intensief getest op functionaliteit, materiaalkwaliteit en duurzaamheid. Door voortdurend te testen en te innoveren, zorgen we ervoor dat je jarenlang plezier hebt van onze kranen – voor kwaliteit waarop je kunt vertrouwen.

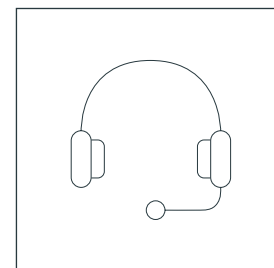

Langlebigkeit, auf die Sie vertrauen können.

Unsere Armaturen und Duschen stehen für Qualität und Beständigkeit – deshalb bieten wir Ihnen eine **5-jährige Garantie**, die unsere Überzeugung in ihre Haltbarkeit und Zuverlässigkeit unterstreicht. Damit Sie auch in Zukunft abgesichert sind, gewähren wir zusätzlich eine 10-jährige Nachkaufgarantie auf Ersatzteile. So können Sie sich langfristig auf uns und unsere Produkte verlassen.

EN | Our faucets and showers stand for quality and durability – which is why we offer you a **5-year guarantee** that emphasizes our conviction in their durability and reliability. To ensure that you are also protected in the future, we also offer a 10-year guarantee on spare parts availability. So you can rely on us and our products for the long term.

FR | Nos mitigeurs et douches sont synonymes de qualité et de durabilité. C'est pourquoi nous vous offrons **garantie de 5 ans**, qui souligne notre conviction dans leur durabilité et leur fiabilité. Pour que vous soyez également couvert à l'avenir, nous accordons en outre une garantie de 10 ans sur la disponibilité de pièces de rechange. Vous pouvez ainsi compter sur nous et sur nos produits à long terme.

NL | Onze kranen en douches staan voor kwaliteit en duurzaamheid – daarom bieden we je een **garantie van 5 jaar** die onze overtuiging in hun duurzaamheid en betrouwbaarheid benadrukt. Om ervoor te zorgen dat je ook in de toekomst beschermd bent, bieden we 10 jaar garantie op de beschikbaarheid van onderdelen. Je kunt dus op lange termijn op ons en onze producten vertrouwen.

Wir sind für Sie da

Über die Service-Hotline (+49 54 07 / 87 07 - 100) oder per Mail (service@fjschuette.com) erreichen Sie unsere geschulten MitarbeiterInnen, die Sie umfassend beraten. Vom Ersatzteilversand bis hin zur Montageanleitung unterstützen wir Sie jederzeit. Sprechen Sie uns an!

EN | Via the service hotline (+49 54 07 / 87 07 - 100) or by e-mail (service@fjschuette.com) you can reach our well-trained staff, who will provide you with all the information you need. From the dispatch of spare parts to installation instructions, we will always support you. Simply get in touch with us!

FR | Via l'assistance téléphonique du service après-vente (+49 54 07 / 87 07 - 100) ou par e-mail (service@fjschuette.com), vous contactez nos équipes formées qui vous conseilleront de manière exhaustive. De l'envoi de pièces de rechange aux instructions de montage, nous vous assistons à tout moment. N'hésitez pas à nous contacter !

NL | Via de servicehotline (+49 54 07 / 87 07 - 100) of per e-mail (service@fjschuette.com) kun je onze getrainde medewerkers bereiken, die je uitgebreid advies zullen geven. Van de verzending van onderdelen tot montagehandleidingen, wij zullen u te allen tijde ondersteunen. Neem gerust contact met ons op!

50 JAHRE IN UNSEREM ELEMENT

50 YEARS · 50 ANS
IN OUR ELEMENT · DANS NOTRE ÉLEMENT

2026 feiern wir 50 Jahre SCHÜTTE und blicken auf ein halbes Jahrhundert Unternehmensgeschichte zurück. Seit 1976 haben wir uns als familiengeführtes Unternehmen kontinuierlich weiterentwickelt und unsere Kompetenz als Hersteller im Sanitärbereich stetig ausgebaut. Der Name SCHÜTTE steht für Qualität, Funktionalität und einen verantwortungsvollen Umgang mit Wasser – getragen von Erfahrung und langfristigem Denken. Unter dem Motto „50 Jahre – in unserem Element“ würdigen wir diesen Weg und richten unseren Blick weiterhin nach vorn.

EN | In 2026, we will celebrate 50 years of SCHÜTTE and look back on half a century of company history. Since 1976, we have continuously evolved as a family-owned business and steadily expanded our expertise as a manufacturer in the sanitary sector. The name SCHÜTTE stands for quality, functionality and a responsible approach to water – shaped by experience and long-term thinking. Under the motto “50 years – in our element”, we honour this journey while continuing to look ahead.

FR | En 2026, nous fêterons les 50 ans de SCHÜTTE et reviendrons sur un demi-siècle d'histoire de l'entreprise. Depuis 1976, nous n'avons cessé d'évoluer en tant qu'entreprise familiale et avons constamment élargi notre expertise en tant que fabricant dans le secteur sanitaire. Le nom SCHÜTTE est synonyme de qualité, de fonctionnalité et d'une approche responsable de l'eau, façonnée par l'expérience et une réflexion à long terme. Sous la devise « 50 ans – dans notre élément », nous rendons hommage à ce parcours tout en continuant à regarder vers l'avenir.

NL | In 2026 vieren we het 50-jarig bestaan van SCHÜTTE en kijken we terug op een halve eeuw bedrijfsgeschiedenis. Sinds 1976 hebben we ons als familiebedrijf voortdurend ontwikkeld en onze expertise als fabrikant in de sanitairsector gestaag uitgebreid. De naam SCHÜTTE staat voor kwaliteit, functionaliteit en een verantwoordelijke omgang met water – gevormd door ervaring en langetermijndenken. Onder het motto “50 jaar – in ons element” eren we deze reis en blijven we vooruitkijken.

AQUASTAR PRO

Die **AQUASTAR PRO** ist Küchenarmatur und Wasserfilter in einem. Eine separate Wasserführung sorgt für gesundes, gefiltertes Trinkwasser auf der einen Seite und ungefiltertes Trinkwasser für viele alltägliche Anwendungen auf der anderen Seite.

EN | The **AQUASTAR PRO** is a kitchen tap and water filter in one. A separate water supply ensures healthy, filtered drinking water on the one hand and unfiltered drinking water for many everyday uses on the other.

FR | **AQUASTAR PRO** est à la fois un mitigeur de cuisine et un filtre à eau. Une conduite d'eau séparée garantit une eau potable saine et filtrée d'une part, et une eau potable non filtrée pour de nombreuses applications quotidiennes d'autre part.

NL | De **AQUASTAR PRO** is een keukenkraan en waterfilter in één. Een gescheiden watertoevoer zorgt enerzijds voor gezond, gefilterd drinkwater en anderzijds voor ongefilterd drinkwater voor vele dagelijkse toepassingen.

Niederdruck-Armaturen sind speziell für den Einsatz an drucklosen Warmwasserspeichern konzipiert und regulieren den Wasserfluss in Systemen mit geringem Druck. Sie schützen den Speicher vor Überdruck und sorgen für eine sichere, zuverlässige Warmwasserversorgung in Küche und Bad. Diese Armaturen sind unerlässlich, wenn es keinen direkten Anschluss an eine Warmwasserleitung gibt.

EN | Low-pressure taps are specially designed for use on unpressurised hot water storage tanks and regulate the water flow in systems with low pressure. They protect the cylinder from overpressure and ensure a safe, reliable hot water supply in the kitchen and bathroom. These taps are essential if there is no direct connection to a hot water pipe.

FR | Les mitigeurs basse pression sont spécialement conçus pour être utilisés sur les ballons d'eau chaude sans pression et régulent le débit d'eau dans les systèmes à faible pression. Ils protègent le ballon de la surpression et assurent une alimentation en eau chaude sûre et fiable dans la cuisine et la salle de bains. Ces mitigeurs sont indispensables lorsqu'il n'y a pas de raccordement direct à une conduite d'eau chaude.

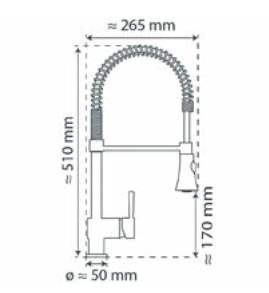

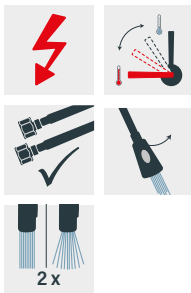

NL | Lagedrukkranen zijn speciaal ontworpen voor gebruik op opslagtanks voor warm water zonder druk en regelen de watertoevoer in systemen met lage druk. Ze beschermen de boiler tegen overdruk en zorgen voor een veilige, betrouwbare warmwatervoorziening in de keuken en badkamer. Deze kranen zijn onmisbaar als er geen directe aansluiting op een warmwaterleiding is.

Niederdruck-Armaturen sind speziell für den Einsatz an drucklosen Warmwasserspeichern konzipiert und regulieren den Wasserfluss in Systemen mit geringem Druck. Sie schützen den Speicher vor Überdruck und sorgen für eine sichere, zuverlässige Warmwasserversorgung in Küche und Bad. Diese Armaturen sind unerlässlich, wenn es keinen direkten Anschluss an eine Warmwasserleitung gibt.

EN | Low-pressure taps are specially designed for use on unpressurised hot water storage tanks and regulate the water flow in systems with low pressure. They protect the cylinder from overpressure and ensure a safe, reliable hot water supply in the kitchen and bathroom. These taps are essential if there is no direct connection to a hot water pipe.

FR | Les mitigeurs basse pression sont spécialement conçus pour être utilisés sur les ballons d'eau chaude sans pression et régulent le débit d'eau dans les systèmes à faible pression. Ils protègent le ballon de la surpression et assurent une alimentation en eau chaude sûre et fiable dans la cuisine et la salle de bains. Ces mitigeurs sont indispensables lorsqu'il n'y a pas de raccordement direct à une conduite d'eau chaude.

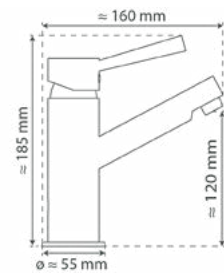

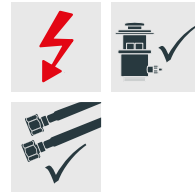

NL | Lagedrukkranen zijn speciaal ontworpen voor gebruik op opslagtanks voor warm water zonder druk en regelen de watertoevoer in systemen met lage druk. Ze beschermen de boiler tegen overdruk en zorgen voor een veilige, betrouwbare warmwatervoorziening in de keuken en badkamer. Deze kranen zijn onmisbaar als er geen directe aansluiting op een warmwaterleiding is.

Der Kaltwasserhahn ist die ideale Armatur, überall dort wo kein Warmwasser benötigt wird. Das spart Geld und Energie. Ein kleiner Beitrag für die Umwelt.

EN | The cold-water tap is the ideal choice wherever hot water is not required. This saves money and energy. A small contribution to the environment.

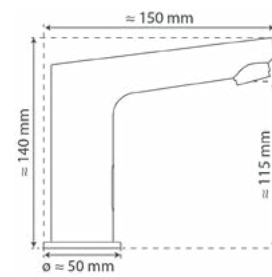

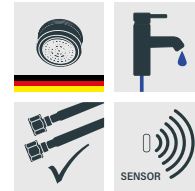

FR | Le robinet d'eau froide est le choix idéal, partout où l'on n'a pas besoin d'eau chaude. Cela permet d'économiser de l'argent et de l'énergie. Une petite contribution pour l'environnement.

NL | De fonteinkraan is de ideale kraan als er geen warm water nodig is. Dit bespaart geld en energie. Een kleine bijdrage voor het milieu.

Unsere Wellness-Regenduschen bieten ein luxuriöses Duscherlebnis, das durch sanfte Wasserstrahlen den Körper wie ein warmer Sommerregen umhüllt. Sie schaffen eine Oase der Entspannung im eigenen Zuhause, fördern die Regeneration und lassen den Alltagsstress sanft abperlen.

EN | Our wellness rain showers offer a luxurious shower experience with gentle jets of water that envelop the body like a warm summer rain. They create an oasis of relaxation in your own home, promote regeneration and allow everyday stress to gently roll off.

FR | Nos douches à effet pluie offrent une expérience de douche luxueuse, enveloppant le corps de doux jets d'eau comme une chaude pluie d'été. Elles créent une oasis de détente à domicile, favorisent la régénération et permettent au stress quotidien de s'écouler doucement.

NL | Onze wellness regendouches bieden een luxueuze douche-ervaring met zachte waterstralen die het lichaam omhullen als een warme zomerregen. Ze creëren een oase van ontspanning in uw thuis, bevorderen de regeneratie en laten de stress van alledag zachtjes van u afglijden.

Unsere Handbrausen mit Wasserspardichtung bieten eine effektive Möglichkeit, den Wasserverbrauch zu reduzieren, ohne dabei auf Komfort zu verzichten. Die innovative Technik sorgt für einen gleichmäßigen Wasserfluss, während wertvolle Ressourcen geschont werden. Setzen Sie auf Nachhaltigkeit und sparen Sie Wasser, ohne Kompromisse bei der Leistung einzugehen.

EN | Our hand showers with a water-saving seal offer an effective way to reduce water consumption without compromising on comfort. Innovative technology ensures an even flow of water while conserving valuable resources. Focus on sustainability and save water without compromising on performance.

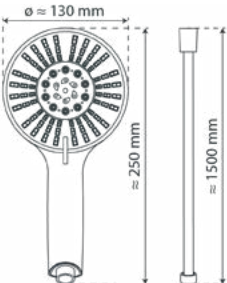

FR | Nos douchettes à main avec joint d'économie d'eau offrent un moyen efficace de réduire la consommation d'eau sans pour autant renoncer au confort. La technique innovante assure un débit d'eau régulier tout en préservant les précieuses ressources. Misez sur la durabilité et économisez de l'eau sans faire de compromis sur les performances.

NL | Onze handdouches met een waterbesparende afdichting bieden een effectieve manier om het waterverbruik te verminderen zonder afbreuk te doen aan het comfort. De innovatieve technologie zorgt voor een gelijkmatige waterstroom terwijl waardevolle bronnen worden bespaard. Focus op duurzaamheid en bespaar water zonder aan prestaties in te boeten.

WC-SITZE

EN | TOILET SEATS

FR | ABATTANTS WC

NL | WC-ZITTINGEN

MDF

MDF ist die Abkürzung für mitteldichte Faserplatte. MDF-Platten haben in alle Richtungen ein gleichmäßiges Gefüge. Die MDF-Platten werden formgerecht zugeschnitten und haben eine besonders feine Oberfläche.

BAMBOO

Bambus WC-Sitze werden aus echtem Bambus hergestellt. Bambus ist ein schnell nachwachsender und nachhaltiger Rohstoff. Durch eine Mehrschichtlackierung erhalten sie eine hygienische, pflegeleichte Oberfläche.

WOOD CORE

Besonders komfortabel und vor allem hautfreundlich, präsentieren sich WC-Deckel mit Holzkern. Das Material wird in die passende Form gepresst und hat eine besonders feine Oberfläche.

EN | MDF is the abbreviation for medium-density fibreboard. MDF boards have a uniform structure in all directions. The MDF boards are cut to shape and have a particularly fine surface.

FR | MDF est l'appellation pour panneaux de fibres de bois à densité moyenne. Les panneaux MDF présentent une structure homogène sous tous les angles. Découpés selon la forme requise, les panneaux MDF se caractérisent par une surface particulièrement douce.

NL | MDF is de benaming voor een middelzware vezelplaat. MDF-platen hebben een uniforme structuur in alle richtingen. De MDF-platen zijn in vorm gesneden en hebben een bijzonder fijn oppervlak.

EN | Bamboo toilet seats are made of real bamboo. Bamboo is a fast re-growing and sustainable raw material. A multi-layer lacquer finish gives you a hygienic, easy to clean surface.

FR | Les abattants WC en bambou sont fabriqués en bambou véritable. Le bambou est une matière première durable qui repousse rapidement. Plusieurs couches de vernis rendent la surface hygiénique et facile à entretenir.

NL | Bamboe WC-zittingen zijn gemaakt van echt bamboe. Bamboe is een snelgroeïende en duurzame grondstof. Een meerlaagse coating geeft ze een hygiënisch, onderhoudsvriendelijk oppervlak.

EN | Toilet seats with wooden core are especially comfortable and, above all, kind to the skin. The material is pressed into the right shape and has a particularly fine surface.

FR | Les abattants WC avec un noyau en bois sont particulièrement confortables et surtout agréable pour la peau. Le matériau pressé dans un moule à la forme souhaitée possède une surface particulièrement lisse.

NL | WC-zittingen met een houten kern zijn bijzonder comfortabel en vooral huidvriendelijk. Het materiaal wordt in de juiste vorm geperst en heeft een bijzonder fijn oppervlak.

DURO-PLAST

Duroplast WC-Sitze werden im Pressverfahren hergestellt. Das extrem harte, massive, durchgefärbte Material ist bruchstark und kratzfest. Die porenglatte Oberfläche macht die Pflege leicht.

THERMO-PLASTIC

Thermoplast WC-Sitze bestehen aus besonders leichtem, formstabilem Kunststoff. Das Material ist recyclingfähig und überzeugt durch seine außergewöhnliche Bruchstarkheit.

EN | Duroplast toilet seats are manufactured in a pressure moulding process. The extremely hard, strong and thorough-coloured material is shatterproof and scratch resistant. The pore-smooth surface makes cleaning easy.

FR | Les abattants WC en duroplast sont fabriqués par un procédé de moulage sous pression. Ce matériau extrêmement dur, massif et coloré dans la masse est incassable et résistant aux rayures. La surface lisse facilite le nettoyage.

NL | Duroplast WC-zittingen worden vervaardigd in een drukgietsproces. Het extreem harde, sterke en doorgekleurde materiaal is onbreekbaar en krasbestendig. Het gladde oppervlak zonder poriën maakt het onderhoud eenvoudig.

EN | Thermoplastic toilet seats are made from particularly lightweight, dimensionally stable plastic. The material is recyclable and impresses with its exceptional break resistance.

FR | Les abattants WC en thermoplastique sont fabriqués à partir d'un plastique particulièrement léger et stable. Ce matériau est recyclable et se distingue par sa résistance exceptionnelle à la rupture.

NL | Thermoplast WC-zittingen zijn gemaakt van bijzonder licht en vormvast kunststof. Het materiaal is recyclebaar en overtuigt door zijn uitzonderlijke breukvastheid.

HIGH GLOSS

Unsere High Gloss WC-Sitze überzeugen durch ihre hochglänzende Oberfläche und perfekte Verarbeitung.

EN | Our High Gloss toilet seats impress with their ultra-shiny surface and perfect finish.

FR | Nos abattants WC High Gloss vous garantissent une surface brillante et une finition parfaite.

NL | Onze High Gloss WC-zittingen overtuigen door hun hoogglansoppervlak en perfecte afwerking.

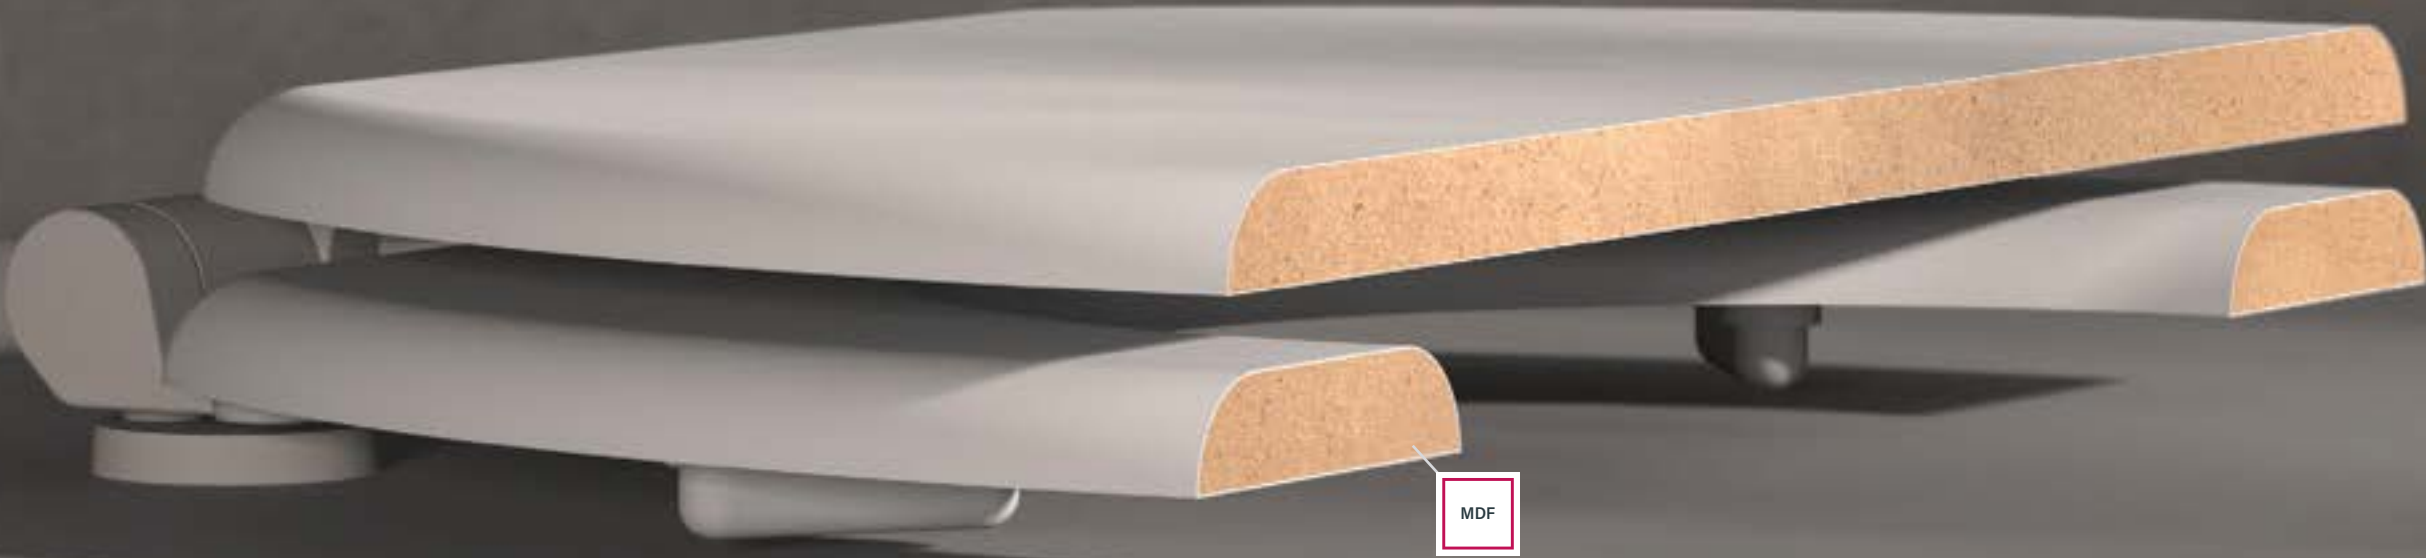

PREMIUM

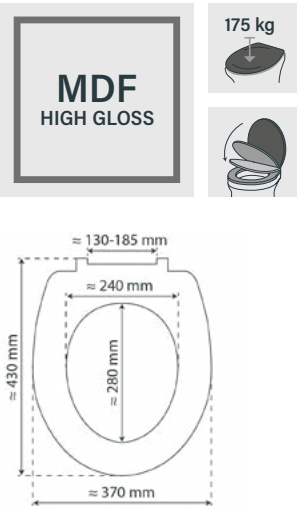

Unsere Premium WC-Sitze zeichnen sich durch besonders hochwertige Scharniere und eine exzellente Verarbeitung aus.

EN | Our premium toilet seats stand out with exceptionally high-quality hinges and outstanding craftsmanship.

FR | Nos abattants WC haut de gamme se distinguent par des charnières de très haute qualité et une finition irréprochable.

NL | Onze premium wc-brillen kenmerken zich door bijzonder hoogwaardige scharnieren en een uitstekende afwerking.
